**Attachments:** FY2021 Omnibus - EPA Summary-OW equities highlighted.pdf

All-

The OCIR summary attached includes several OW highlighted actions/provisions from the FY 21 Omnibus. Please note that some of the reports/briefing requirements that require OW action will be carried out at the Agency level since they are multi-NPM reports. Our programs that require briefings and/or reports include PFAS MCL status, SRFs – AIS gaskets, UIC Class VI, Cybersecurity, WIIN grants' allocations – specifically small and disadvantaged communities, and LCR. Please see Greg's note below for additional information.

**Subject:** FY21 Omnibus Summary - EPA/OW Equities

OW Congressional Contacts,

OCIR recently sent the attached PDF summary of EPA equities in the final text of the FY2021 Omnibus to EPA senior leadership. The summary provides details on the provisions directly and indirectly impacting EPA programs. The summary is divided up into separate sections and also provide details on the accompanying Explanatory Statement (Report) provisions, with any required briefings and reports. I highlighted the portions with OW equities. I also wanted to flag a few provisions that are new for FY 21 as shown below. This summary focuses on the policy provisions in the Omnibus.

As for budget numbers, RMS also recently sent the attached email to OW senior leadership with a budget comparison table and additional details concerning budget and funding. This email also contains the complete EPA-related omnibus bill text and report text.

I would encourage you to review these documents in detail and to forward them to your management and staff as you see fit. RMS and I will be following up with you and your budget officers in the coming weeks on next steps. However, I suggest moving forward with initial preparations for the requested briefings and reports. Many are requested by the end of February.

New provisions for FY 21 with OW equities (often appearing in Divisions for other agencies)

- Corps WIFIA funding (OWM) – page 5
- HHS funding to assist with water and sewer bills (OGWDW/OWM) – page 5
- State department funding to address ocean plastic pollution and other marine debris (OWOW) – page 5
- Water reuse related provisions (IO/OPME) – page 5
- Produced water (OST) – page 6

- Carbon Capture (UIC Class VI implications) (OGWDW) – page 6-7
